

This series comes in 1 Ivory colouring and our Tech Grip Finish.

Tech Grip is incredibly smooth to touch, but is also able to achieve a P4 rating when wet, which allows it to be used internally and externally, creating a seamless look between the two areas.

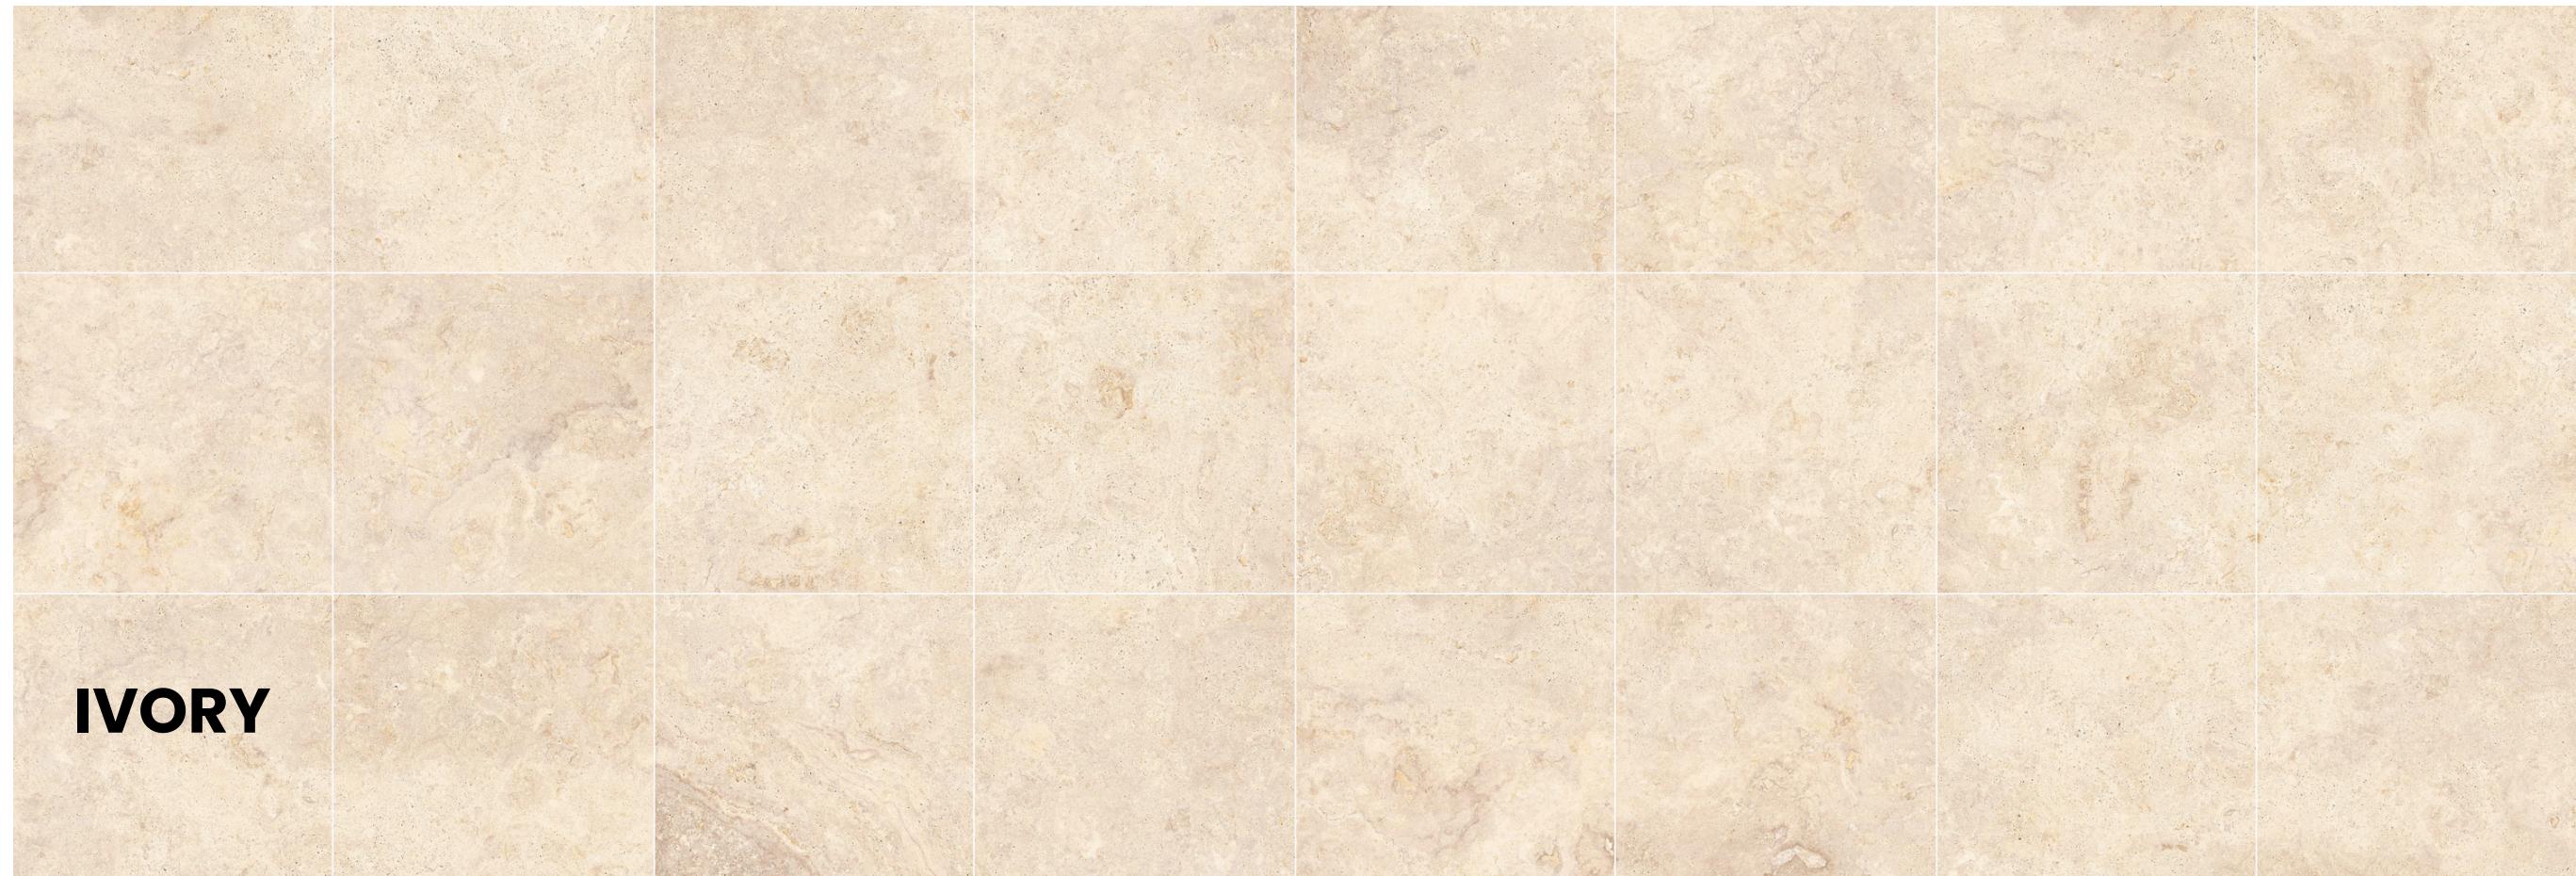

With 24 different faces, a mica imbedded surface and its unique filled surface perfectly highlights the true beauty of this product.

There are 4 sizes – 30x60, 60x60, 60x120 and a 400x600 mitred coping piece and also in a 300x300 finger mosaic sheet with 22x145 fingers.
